

Jared Bunch

Principal UX / Product Designer | Strategist & Facilitator | AI Enthusiast

Michigan | 313.268.1181 | jared.bunch@outlook.com | jaredbunch.com | linkedin.com/in/jaredabunch

Professional Summary

With 12+ years of experience as a Principal UX / Product Designer, I have led global teams and shaped strategies for enterprise products. Aligning design vision with business goals to drive growth, I manage projects and products that contributed to Autodesk's revenue rising from \$1.5B to \$2.27B. By combining AI workflows with human-centered design, I help organizations scale their design operations and deliver solutions that meet both technical requirements and user needs.

Experience

MyGrowthhub

Principal Product Designer

2026 – Present

- **Mentoring:** Working with junior designers and developers to mentor them through the Agile process.
- **MVP Launch & Optimization:** Designed, developed, and successfully launched MVP using Agile methodologies, resulting in **19% decrease in exit rate** and a more user-friendly product.
- **Data-Driven Iteration:** Established KPIs to track the success of the design and analyzed web analytics to make **data-driven iterations** and track business-oriented metrics.
- **Strategic Alignment:** Solved product problems with human-centered design strategies while balancing **company goals and design cohesion** for optimal implementation.
- **User-Centric Strategy:** Conducted user research, stakeholder interviews, and framed problems and insights into stories to help **shape design strategy**, prioritize backlog, and ensure accessibility.

Autodesk

Principal Experience Designer / Design Leader

2015 – 2025

- **Product Strategy:** Partnered with Product Management to shape long-term strategy and align the UX vision with business goals, speeding up roadmap execution and launching **3 major releases in 18 months**.
- **Strategic Adoption:** Led design for projects that increased feature adoption by **25% in 12 months** by focusing on underused legacy workflows.
- **Global, Cross-Functional Leadership:** Directed global scrum teams to deliver **10+ features each year**, improving usability and customer satisfaction scores by **15% year over year**, as measured by internal NPS tracking.
- **Revenue Impact:** Headed UX strategy for major product releases that contributed to increasing revenue from **\$1.54B to \$2.27B in three years** by focusing on usability.
- **Organizational Alignment:** Through the creation of personas, journey maps, surveys, and design validation, I aligned stakeholders with user goals. This reduced feature bloat and kept **90% of development cycles** focused on high-value user tasks.
- **Insight Driven Research:** Conducted **dozens of research studies to uncover behavioral insights that directly shaped roadmap decisions, moving from anecdotal planning to data-driven prioritization**.
- **Design Validation:** Created high-fidelity mockups and interactive prototypes that improved usability testing success rates by **30% compared to previous baseline testing** and significantly reduced post-launch rework.
- **Mentoring:** Mentored multiple junior designers and created onboarding programs that increased team retention, resulting in **zero attrition** within the design team over 2 years.
- **Process Optimization:** Standardized design workflows across teams, reducing design to development handoff time by **25%** and shortening the average handoff cycle from **4 weeks to 3**.

Quicken Loans

User Experience Specialist

2014 – 2015

- **Operational Efficiency & Knowledge Management:** Built a centralized research library that **reduced research by 20%** in the first two quarters by streamlining how teams' access and tag historical insights and reducing duplicate discovery work across teams.
- **Experience Optimization:** Promoted UX best practices to reduce friction in the mortgage process, leading to a **15% improvement** in task completion for key lending flows within the first 6 months.
- **Workshops:** Led regular design workshops that built cross-functional alignment and ensured **high-impact user needs** were prioritized over subjective stakeholder requests.

Autodesk

Sr. Product Designer

2006 – 2014

2009 – 2014

- **Stakeholder Influence:** Facilitated cross-functional workshops with Engineering and Product leads to define the MVP for Terminal Strip Editor, successfully navigating technical debt to deliver a core feature set **6 weeks ahead** of the original roadmap.
- **Design Lead:** Served as the sole Design Lead for AutoCAD Electrical, **owning the end-to-end UX strategy** and execution for the entire product line while consistently delivering high-complexity features that **exceeded roadmap performance goals**.
- **Complexity Reduction:** Architected and launched a redesigned interface for AutoCAD Electrical, **modernizing and simplifying** the primary user interface. By reducing cognitive load for new users, time-to-value decreased by more than **10% compared to prior releases**.

Product Designer

2006 – 2009

- **Feature Execution:** Delivered **end-to-end designs** for multiple core features, ensuring **100% alignment** with established design system components.
- **Usability Optimization:** Iterated on critical user flows based on session recordings and surveys, resulting in a **10% increase** in task completion rates for new users within the **first 90 days of launch**.
- **Research-led design:** Facilitated **over 25 unmoderated usability tests** to check specific interaction patterns and fixed **3 major friction points** before starting high-fidelity production.

Education & Professional Development

IxDF

Certificate in progress: AI for Designers

LUMA, Human Centered Design

Practitioner Certificate

UC Berkeley, Haas School of Business

Certificate: Negotiations & Influence

ITT Technical Institute

Associates of Applied Science

Leadership Qualities

Honesty & Integrity, Good Communicator, Decision Making Capabilities, Vision & Purpose, Accountability

Skill

A/B Testing, Agile Methodologies, Agile Project Management, Contextual Inquiries, Cross-Functional Team Leadership, Customer Engagement, Design Leadership, Design Systems, Executive Communication & Influence, Global Team Management, Heuristic Evaluation, Influencing Others, Journey Mapping, Mentoring, Person Development, Presentation Skills, Product Design, Product Development, Product Management, Product Strategy, Prototyping, Qualitative Research, Quantitative Research, Remote User Testing, Stakeholder Alignment, Storytelling, Strategic Relationship Building, Strategic Thinking, Survey Design, UI Design, Unmoderated User Testing, User Experience Design, User Experience Testing, User Testing, User Centered Design, UX Strategy, Wireframing
