

Jared Bunch

PRINCIPAL UX / PRODUCT DESIGNER | STRATEGIST & FACILITATOR

Michigan | 313.268.1181 | jared.bunch@outlook.com | [Portfolio](#) | [LinkedIn](#)

Professional Summary

With 12+ years of experience, as a Principal UX Designer, I have led global teams and shaped strategies for enterprise products. Aligning design vision with business goals to drive growth, I led products that helped Autodesk increase revenue from \$1.54B to \$2.27B. By combining AI workflows with LUMA human-centered design, I help organizations scale their design operations and deliver solutions that meet both technical requirements and user needs.

Experience

Autodesk | *Principal Experience Designer / Design Leader* 2015 – 2025

Autodesk | *Product Designer / Sr. Product Designer / Principal Experience Designer* 2006 – 2014

- **Product Strategy:** Partnered with Product Management to shape long-term strategy and align the UX vision with business goals, speeding up roadmap execution and launching **3 major releases in 18 months**.
- **Strategic Adoption:** Led design for projects that increased feature adoption by **25% in 12 months** by focusing on underused legacy workflows.
- **Global, Cross-Functional Leadership:** Led global scrum teams to deliver 10+ features each year, improving usability and customer satisfaction scores by **15% year over year**, as measured by internal NPS tracking.
- **Revenue Impact:** Led UX strategy for major product releases that contributed to increasing revenue from **\$1.54B to \$2.27B** in three years by focusing on usability.
- **Organizational Alignment:** Through the creation of personas, journey maps, surveys, and design validation, I aligned stakeholders with user goals. This reduced feature bloat and kept **90% of development cycles** focused on high value user tasks.
- **Insight Driven Research:** Conducted dozens of research studies to uncover behavioral insights that directly shaped roadmap decisions, moving from **anecdotal planning to data driven prioritization**.
- **Design Validation:** Created high fidelity mockups and interactive prototypes that improved usability testing success rates by **30% compared to previous baseline testing** and significantly reduced post-launch rework.
- **Mentoring:** Mentored multiple junior designers and created onboarding programs that increased team retention, resulting in zero attrition within the design team over 2 years.
- **Process Optimization:** Standardized design workflows across teams, reducing design to development handoff time by **25% and shortening** the average handoff cycle from **4 weeks to 3**.

Quicken Loans | *User Experience Specialist* 2014 – 2015

- **Operational Efficiency:** Built a centralized research library that reduced redundant research by **20% in the first two quarters** by streamlining how teams' access and tag historical insights.
- **Experience Optimization:** Promoted UX best practices to reduce friction in the mortgage process, leading to a **15% improvement** in task completion for key lending flows within the **first 6 months**.
- **Workshops:** Led regular design workshops that **built cross-functional alignment** and ensure **high impact user needs** were prioritized over subjective stakeholder requests.
- **Knowledge Management:** Built and maintained a centralized research repository that saved time and reduced duplicate discovery work across product teams.

Education & Professional Development

ITT Technical Institute

Associates of Applied Science

UC Berkeley, Haas School of Business

Certificate: Negotiations & Influence

LUMA, Human Centered Design Trained

IxDF

Certificate in progress: AI for Designers

Skills & Abilities

- Design Leadership
- UX Strategy
- User Experience Design
- Product Strategy
- Design Systems
- Wireframing
- User Experience Testing
- Prototyping
- Remote User Testing
- Agile Methodologies
- Customer Engagement
- Presentation Skills
- Cross-Functional Team Leadership
- Agile Project Management
- User Testing
- Qualitative User Research
- Quantitative User Research
- Survey Design
- Global Team Management
- Mentoring
- Product Design
- User-Centered Design
- UI Design
- Stakeholder Alignment
- Influence Others
- Product Development
- Persona Development
- Contextual Inquiries
- Project Management
